DISCLAIMER

Refer to Antipa Minerals ASX release 31 August 2022, for full Minyari Dome Project Scoping Study details. Antipa Minerals confirms that it is not aware of any new information or data that materially affects the information included in that release. All material assumptions and technical parameters underpinning that release continue to apply and have not materially changed.

Nature of this document: The purpose of this document is to provide general information about Antipa Minerals Limited (the 'Company'). Unless otherwise stated herein, the information in this document is based on the Company's own information and estimates. In viewing this document you agree to be bound by the following terms and conditions.

Not an offer: This document is for information purposes only and does not constitute or form any part of any offer or invitation to sell or issue, or any solicitation of any offer to purchase or subscribe for, any securities in the Company in any jurisdiction, including the United States. This document and its contents must not be distributed, transmitted or viewed by any person in any jurisdiction where the distribution, transmission or viewing of this document would be unlawful under the securities or other laws of that or any other jurisdiction. In particular, this document is not for release to US newswire services or distribution in the United States. This document is not considered a recommendation by the Company or any of its affiliates, directors or officers that any recipient invest in the Company nor does it constitute investment, accounting, financial, legal or tax advice.

Not financial product advice: This document does not take into account the individual investment objectives, financial situation and particular needs of each of the Company's Shareholders. You may wish to seek independent financial and taxation advice before making any decision in respect of this document. Neither the Company nor any of its related bodies corporate is licensed to provide financial product advice in respect of the Company's securities or any other financial products.

Forward looking statements: Certain statements contained in this document, including information as to the future financial or operating performance of the Company and its projects, are forward looking statements. Such forward looking statements: (a) are necessarily based upon a number of estimates and assumptions that, while considered reasonable by the Company, are inherently subject to significant technical, business, economic, competitive, political and social uncertainties and contingencies; (b) involve known and unknown risks and uncertainties that could cause actual events or results to differ materially from estimated or anticipated events or results reflected in such forward looking statements; and (c) may include, among other things, statements regarding estimates and assumptions in respect of prices, costs, results and capital expenditure, and are or may be based on assumptions and estimates related to future technical, economic, market, political, social and other conditions.

The Company disclaims any intent or obligation to publicly update any forward looking statements, whether as a result of new information, future events or results or otherwise. The words "believe", "expect", "anticipate", "indicate", "contemplate", "target", "plan", "intends", "continue", "budget", "estimate", "may", "will", "schedule" and similar expressions identify forward looking statements. All forward looking statements contained in this document are qualified by the foregoing cautionary statements. Recipients are cautioned that forward looking statements are not guarantees of future performance and accordingly recipients are cautioned not to put undue reliance on forward looking statements due to the inherent uncertainty therein.

Disclaimer: No representation or warranty, express or implied, is made by the Company that the material contained in this document will be achieved or prove to be correct. Except for statutory liability which cannot be excluded, each of the Company, its directors, officers, employees, advisers and agents expressly disclaims any responsibility for the accuracy, fairness, sufficiency or completeness of the material contained in this document, or any opinions or beliefs contained in this document, and excludes all liability whatsoever (including in negligence) for any loss or damage which may be suffered by any person as a consequence of any information in this document or any error or omission there from. The Company is under no obligation to update or keep current the information contained in this document or to correct any inaccuracy or omission which may become apparent, or to furnish any person with any further information, unless required to do so by law. Any opinions expressed in the document are subject to change without notice. Recipients of this document should make their own, independent investigation and assessment of the Company, its business, assets and liabilities, prospects and profits and losses, as well as the matters covered in this document. Independent expert advice should be sought before any decision based on an assessment of the Company is made.

Unverified information: This document may contain information (including information derived from publicly available sources) that has not been independently verified by the Company.

Cautionary note regarding reserves and resources: You should be aware that as an Australian company with securities listed on the ASX, the Company is required to report reserves and resources in accordance with the Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves (JORC Code, 2012 Edition). You should note that while the Company's reserve and resource estimates comply with the JORC Code, they may not comply with the relevant guidelines in other countries and, in particular, do not comply with Industry Guide 7, which governs disclosures of mineral reserves in registration statements filed with the US Securities and Exchange Commission. Information contained in this document describing the Company's mineral deposits may not be comparable to similar information made public by companies subject to the reporting and disclosure requirements of US securities laws. In particular, Industry Guide 7 does not recognise classifications other than proven and probable reserves and, as a result, the SEC generally does not permit mining companies to disclose their mineral resources in SEC filings. You should not assume that quantities reported as "resources" will be converted to reserves under the JORC Code or any other reporting regime or that the Company will be able to legally and economically extract them.

Competent Persons Statement - Exploration Results: Please refer to the detailed statement at the end of this document.

Competent Persons Statement - Mineral Resource Estimations: for the Minyari Dome Project Deposits, Calibre Deposit, Magnum Deposit, Chicken Ranch Deposit and Tim's Dome deposit: Please refer to detailed statement at end of this document.

Australian Dollars: All figures in Australian Dollars unless stated otherwise.

Release Authorised by: Roger Mason - Managing Director.

ANTIPAMINERALS

ACKNOWLEDGEMENT OF COUNTRY

Antipa Minerals acknowledges the Traditional Custodians of country throughout Australia and their connections to land, sea and community. We pay our respect to their Elders past and present, extending that respect to all Aboriginal and Torres Strait Islander peoples today.

THE ANTIPA MINERALS PORTFOLIO

High impact exploration and advancement of our flagship Minyari Dome Project

2.6 Moz

ATTRIBUTABLE GOLD MINERAL RESOURCE¹

5,100 km²

OF HIGHLY PROSPECTIVE GOLD AND COPPER GROUND

OUTSTANDING LOCATION

PROXIMAL TO THE GOLD-COPPER-SILVER TELFER MINE AND HAVIERON AND WINU DEVELOPMENT PROJECTS

SCOPING STUDY CONFIRMS STAND-ALONE PROJECT POTENTIAL

PAYBACK

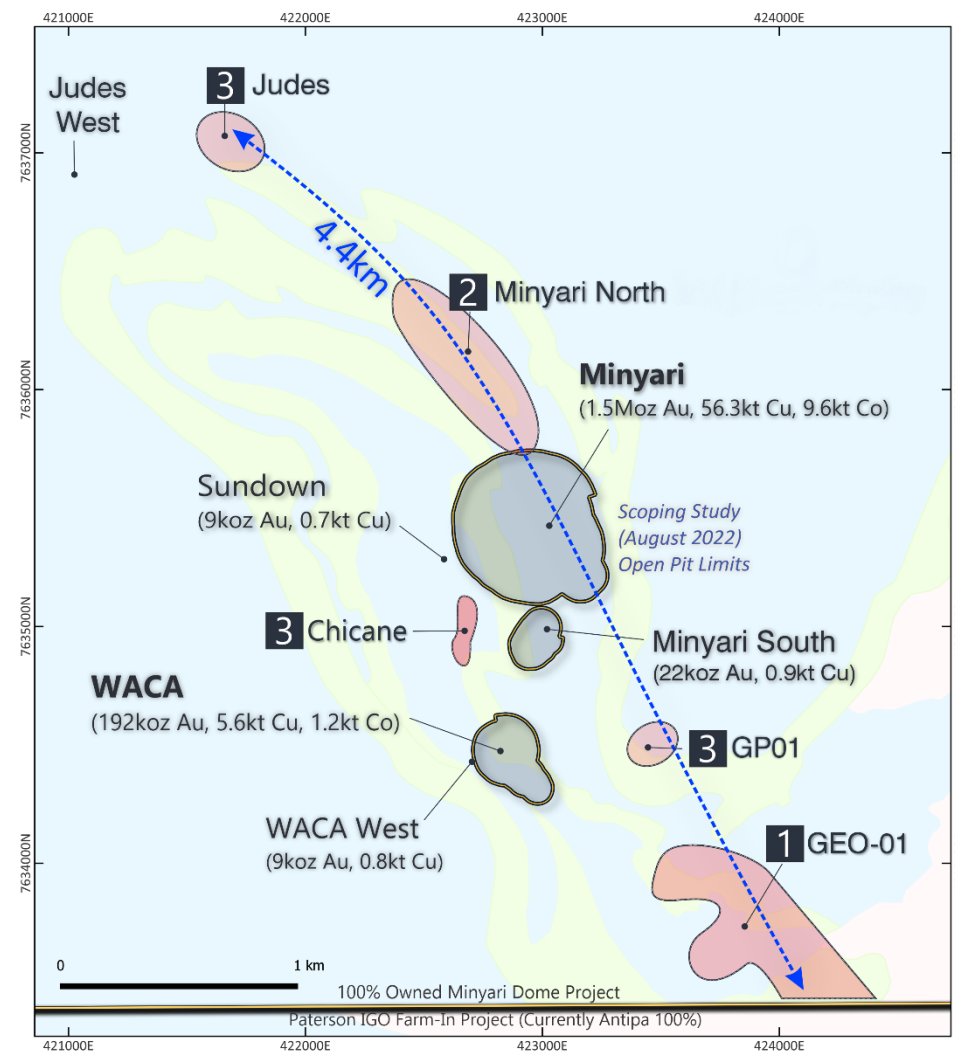

2.5 years
Pre-tax from first production

A

AGGRESSIVE GROWTH DRILLING PROGRAMME

Significantly expanded 2023 mineral resource and greenfield drilling programme

- Expanded Phase 2 programme of up to 19,000m of drilling targeting substantial and rapid growth to the gold-copper resource base and major greenfield discoveries
- Key maiden gold-copper resource and discovery opportunities:
 - 1 Large-scale **GEO-01** prospect defined by 2022 AC drilling with significant mineralisation intersected by 2023 RC drilling
 - 2 **Minyari North** prospect
 - 3 Additional prospects including **GP01, Judes and Chicane** plus high-priority **Tetris and Pacman greenfield targets**
- Phase 1 drill assay results delivered significant additional value enhancement to existing Minyari Dome potential development opportunity
- Potential to materially change scope of the Minyari Dome development and Pre-feasibility Study

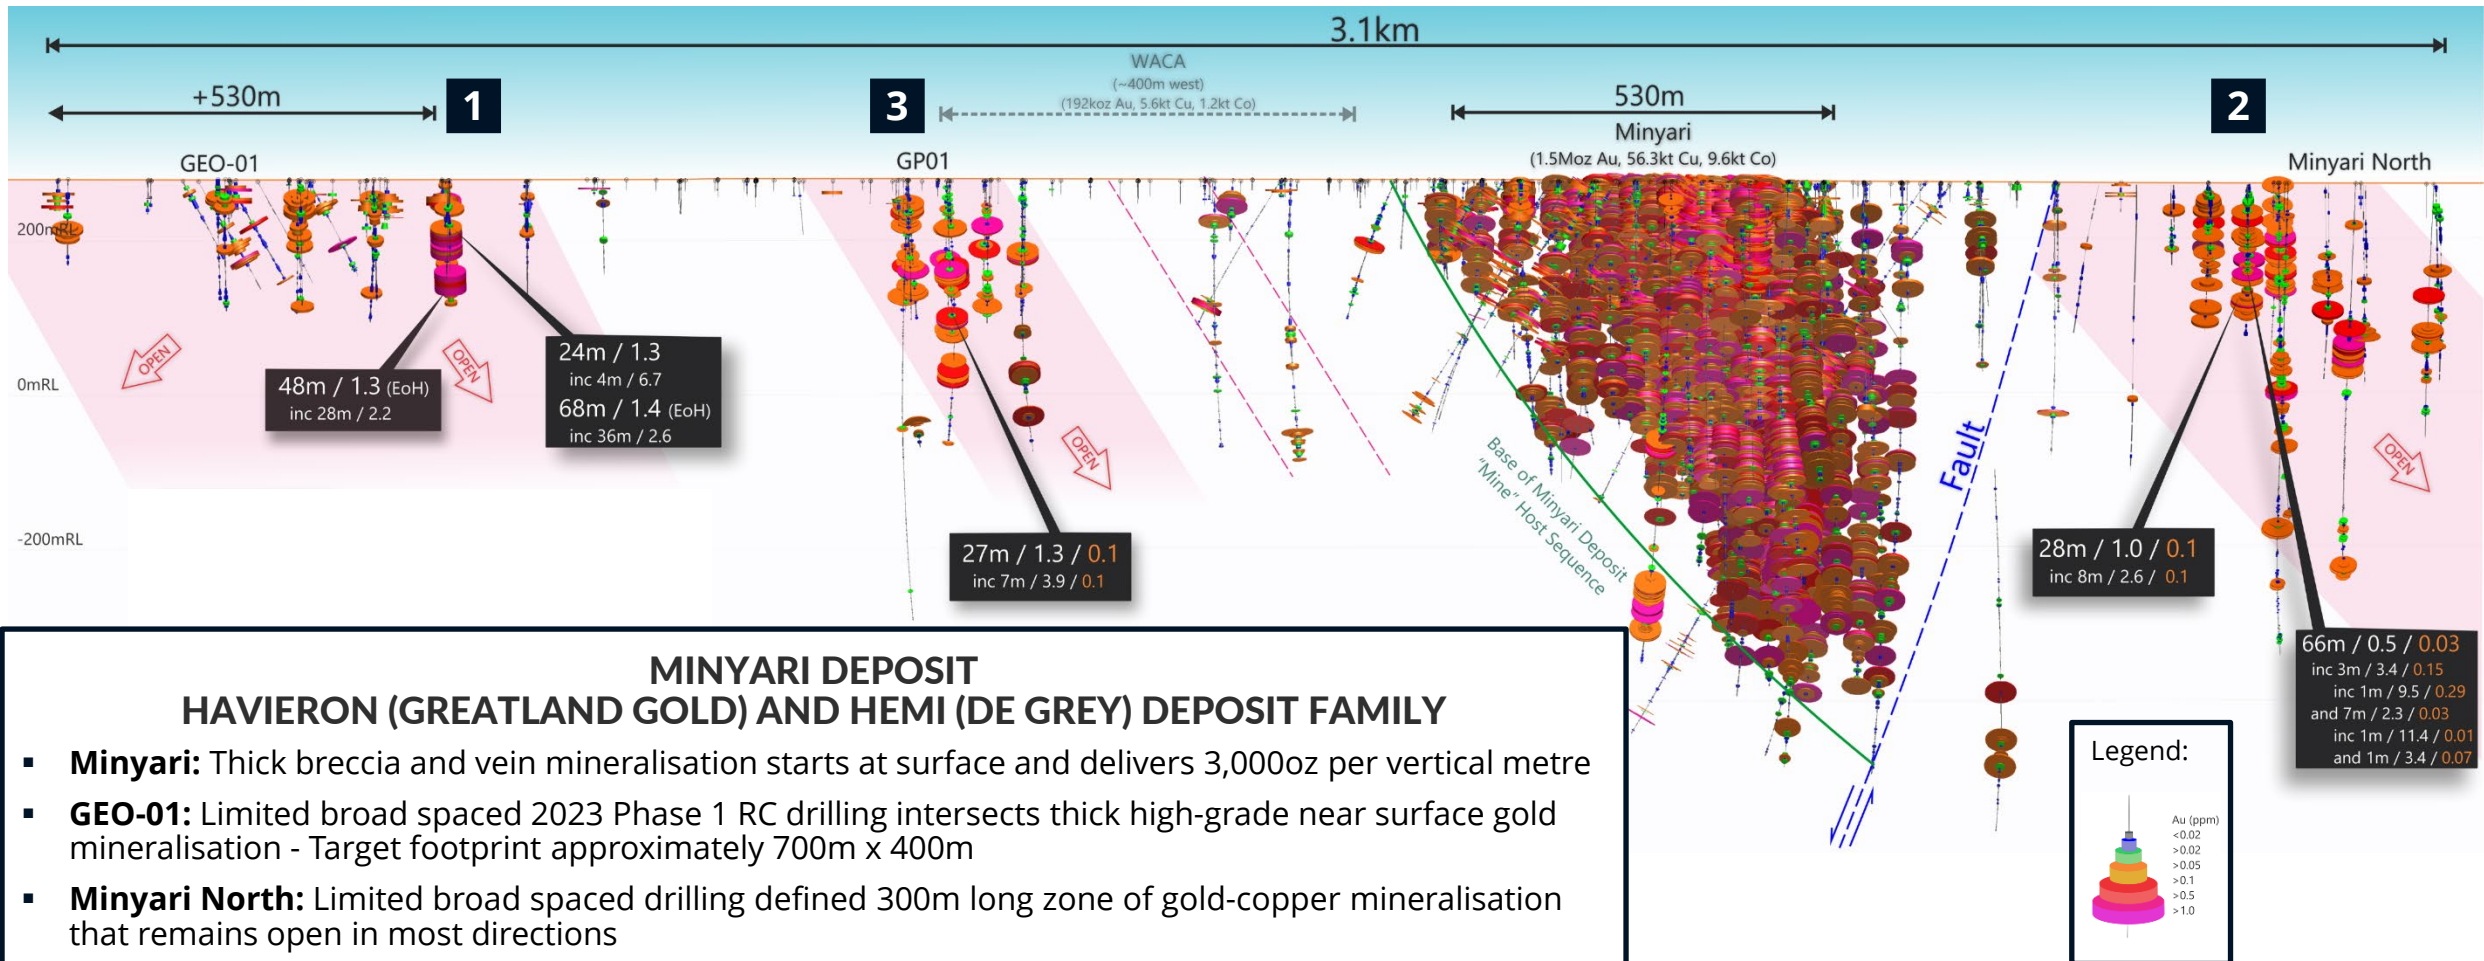

Exploration programmes and development studies are subject to changes which may be made consequent upon results, field conditions and ongoing review.

A

AGGRESSIVE GROWTH DRILLING PROGRAMME

Significantly expanded 2023 mineral resource and greenfield drilling programme

A

AGGRESSIVE GROWTH DRILLING PROGRAMME

1 GEO-01 delivers potential open pit amenable maiden resource opportunity

GEO-01 PROSPECT

- Significant near-surface high-grade gold mineralisation intersected:
 - 24m at 1.3 g/t gold** from 16m down hole in 23MYC0383, including:
 - 4m at 6.7 g/t gold** from 28m
 - 68m at 1.4 g/t gold** from 68m down hole to within 2m of end-of-hole (EoH) in 23MYC0383, including:
 - 36m at 2.6 g/t gold** from 72m
 - 48m at 1.3 g/t gold** and 0.05% copper from 132m down hole to EoH in 23MYC0384, including:
 - 28m at 2.2 g/t gold** and 0.05% copper from 132m
- Mineralisation remains open in most directions
- Only 3 to 16 metres of cover
- Just 1.3km from 1.5Moz Minyari resource
- Substantial Phase 2 follow-up RC ± diamond core drilling to test potential maiden resource opportunity planned to commence in September

**SIGNIFICANT POTENTIAL OPEN PIT AMENABLE
MAIDEN RESOURCE OPPORTUNITY**

A

AGGRESSIVE GROWTH DRILLING PROGRAMME

3 Tetris and Pacman greenfield targets

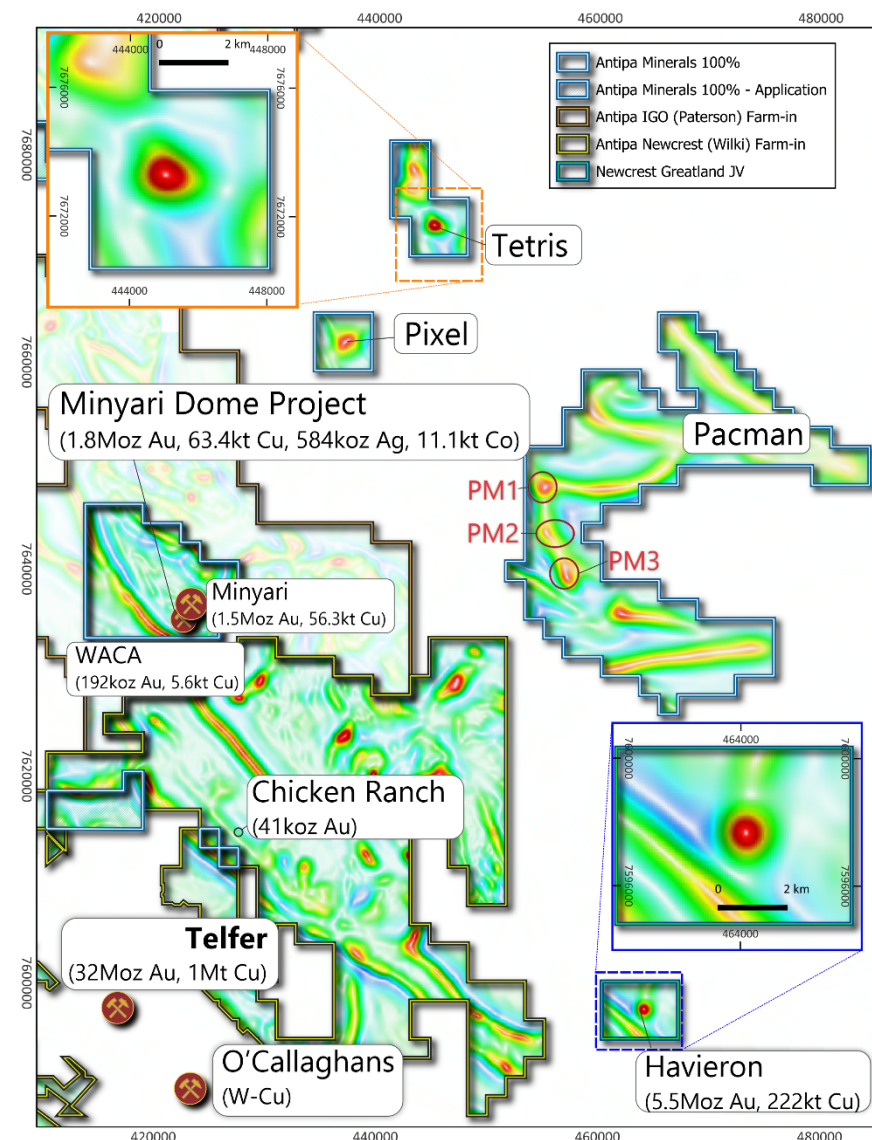

- Diamond drill testing at high-potential Tetris and Pacman targets planned to commence in October
- A\$440,000 WA Government co-funding drilling grants

TETRIS TARGET

- Havieron doppelgänger 35km northeast of Minyari
- Similar bulls-eye shaped, sized and amplitude coincident magnetic-gravity high target as Havieron
- Hosted by interpreted Havieron equivalent stratigraphy under approximately 450m of cover
- Closest drill hole 15km away

PACMAN TARGETS

- Nifty copper deposit and Havieron analogue targets 30km east of Minyari:
 - PM2 is a gravity high ± partially co-incident magnetic high Nifty lookalike
 - PM1 and PM3 are both magnetic high ± partially co-incident gravity high Havieron lookalikes
- Hosted by interpreted Havieron equivalent stratigraphy under approximately 350m of cover
- Closest effective drill hole 10km away

A

MINYARI DOME PROJECT MILESTONES

Continued aggressive exploration activity

Exploration programmes and development studies are subject to changes which may be made consequent upon results, field conditions and ongoing review.

B

PATERSON FARM-IN PROJECT (100% ANTIPA)

LARGE-SCALE 1,550km² LAND HOLDING

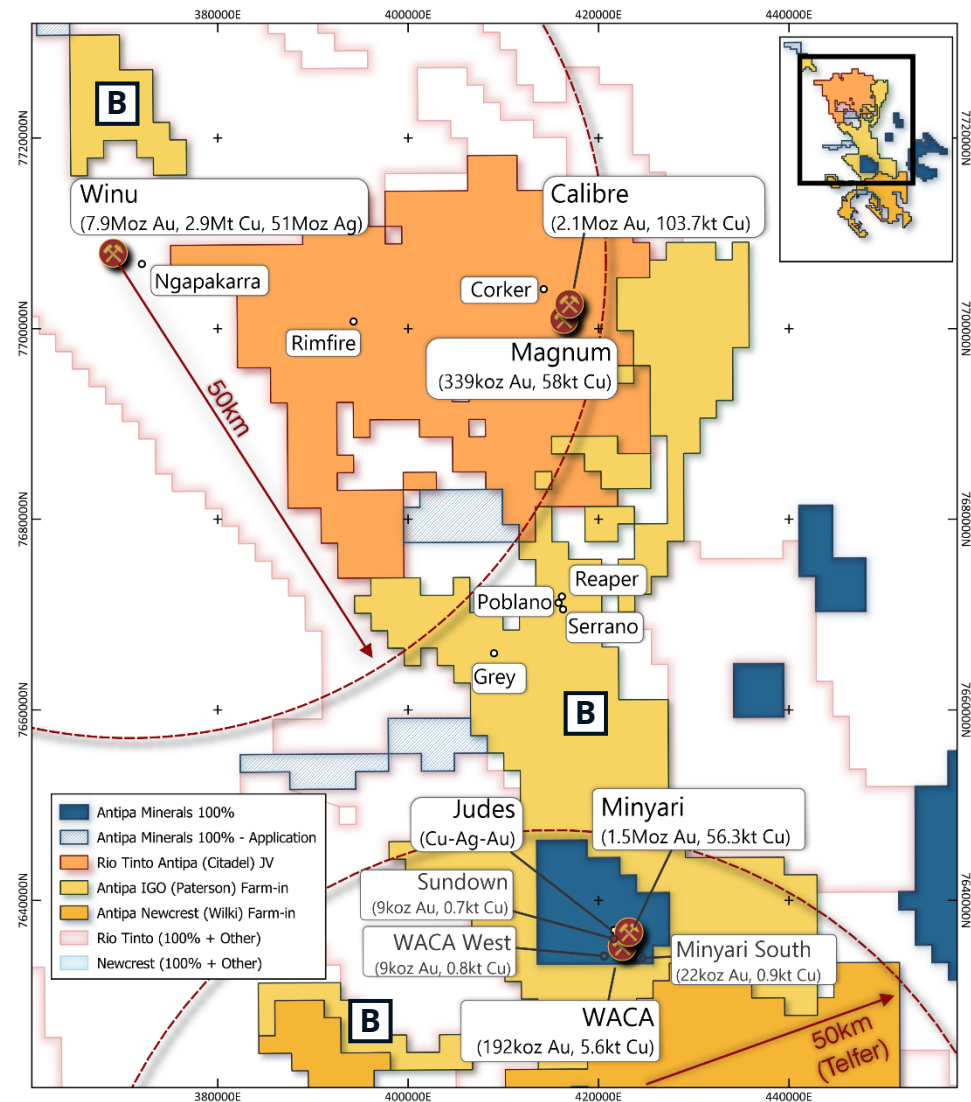

ATTRACTIVE FARM-IN WITH IGO¹

LOCATED WITHIN 22km OF THE TELFER GOLD-COPPER-SILVER MINE AND 22Mtpa PROCESSING FACILITY

AGREEMENT TO SPEND A\$30M FOR 70% JV INTEREST WITH A\$6M SPENT BY IGO TO DATE. ANTIPA IS FREE CARRIED TO COMPLETION OF A FEASIBILITY STUDY ON ANY PROPOSED MINING OPERATION WITHIN THE PROJECT AREA

GOLD-COPPER-SILVER MINERALISATION INTERSECTED

NIFTY, WINU, TELFER AND HAVIERON ANALOGUE TARGETS
MULTIPLE EXCITING CO-INCIDENT GRAVITY-MAGNETIC PLUS SOIL TARGETS

1. IGO may earn a 70% interest in the Paterson Project by funding a total of \$30M consisting of A\$4M of exploration by January 2023 (Stage 1 condition satisfied December 2021) and a further A\$26M by January 2027 (Stage 2). Upon joint venture formation, IGO shall free-carry Antipa to completion of a Feasibility Study.

B

PATERSON FARM-IN PROJECT (100% ANTIPA)

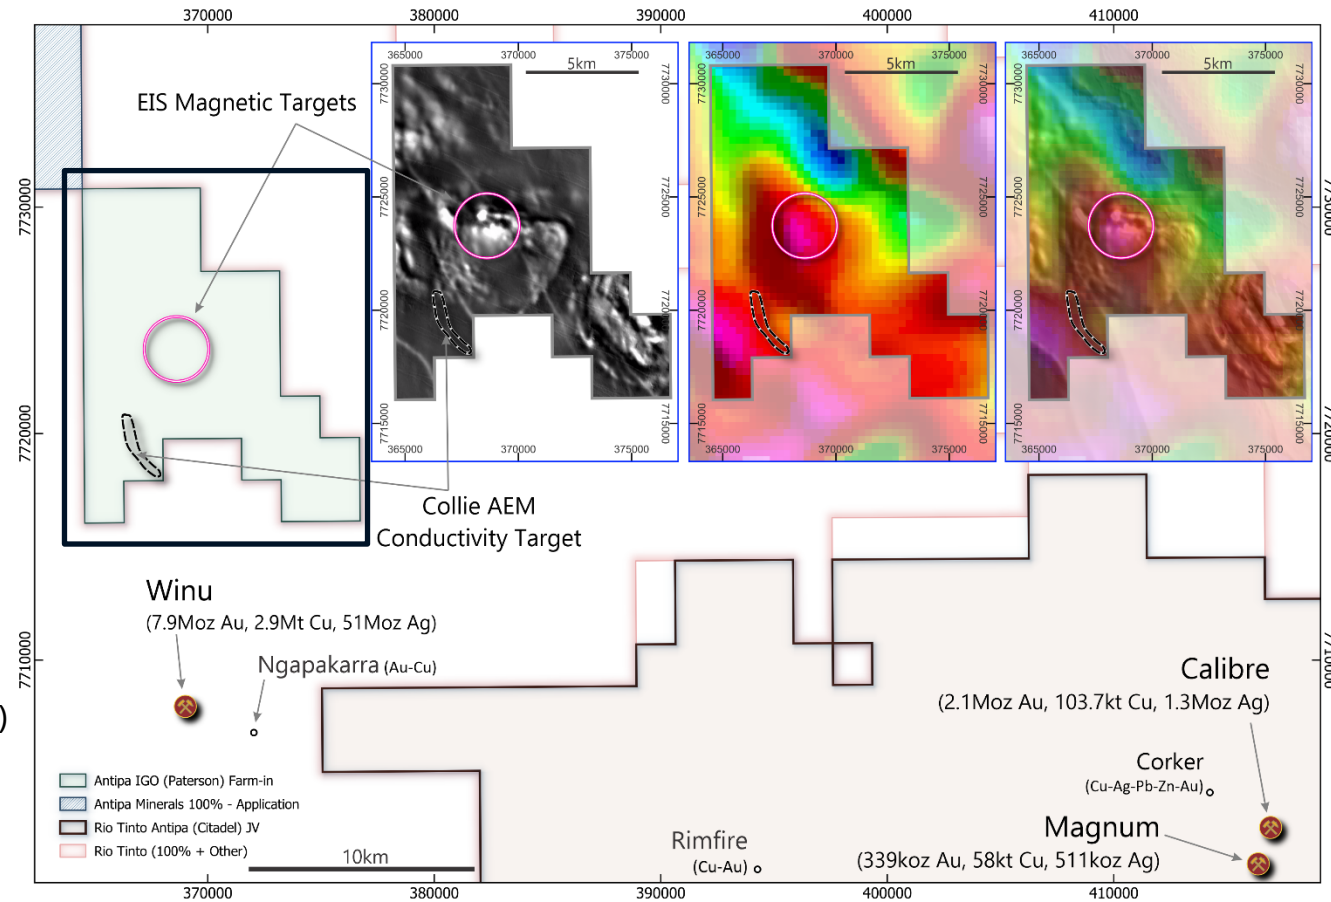

FY2024 high-priority greenfield exploration programme

PROGRAMME DETAIL

- Planned for up to approximately 9,000m, including:
 - 1,350m diamond core drilling;
 - 3,600m RC drilling; and
 - 4,000m air core drilling.
- To be fully funded and operated by IGO
- A\$210,000 WA Government co-funding drilling grant
- Drill programme commenced in August

KEY TARGETS

- Two co-incident magnetic-gravity high Havieron analogue targets 11 to 25km from Minyari
- Two co-incident magnetic-gravity high Havieron analogue targets 15km along strike from Winu (image right)
- Airborne electromagnetic conductivity target "Collie" 10km along strike from Winu (image right)
- Includes additional, numerous geophysical and geochemical targets

Exploration programmes and development studies are subject to changes which may be made consequent upon results, field conditions and ongoing review.

B

PATERSON FARM-IN PROJECT (100% ANTIPA)

Multiple exciting Havieron analogue targets

CO-INCIDENT GRAVITY MAGNETICS IDENTIFY HIGH PRIORITY TARGET

- The Havieron 5.5Moz gold and 222kt copper¹ and Minyari 1.8Moz gold 64kt copper deposits are co-incident magnetic and gravity highs
- **Priority target PP-GRAV02** is just 10km southwest of Minyari and is concealed under less than 25m of cover
- Shallow, broad 200m spaced 1991 Newcrest RAB holes intersected up to 0.1 g/t gold along edge of target

PP-GRAV02 GRAVITY

PP-GRAV02 MAGNETICS

HAVIERON MAGNETICS (SAME SCALE)

1. Refer to slide 29 for Havieron Mineral Resource information.

C CITADEL JV PROJECT (33% ANTIPA)

1.1 Moz GOLD EQUIVALENT ATTRIBUTABLE RESOURCE¹

STRATEGIC JOINT VENTURE WITH RIO TINTO²
1,200km² LAND HOLDING ALL LOCATED WITHIN 50km OF THE WINU COPPER-GOLD-SILVER DEVELOPMENT PROJECT

108 MT MINERAL RESOURCE

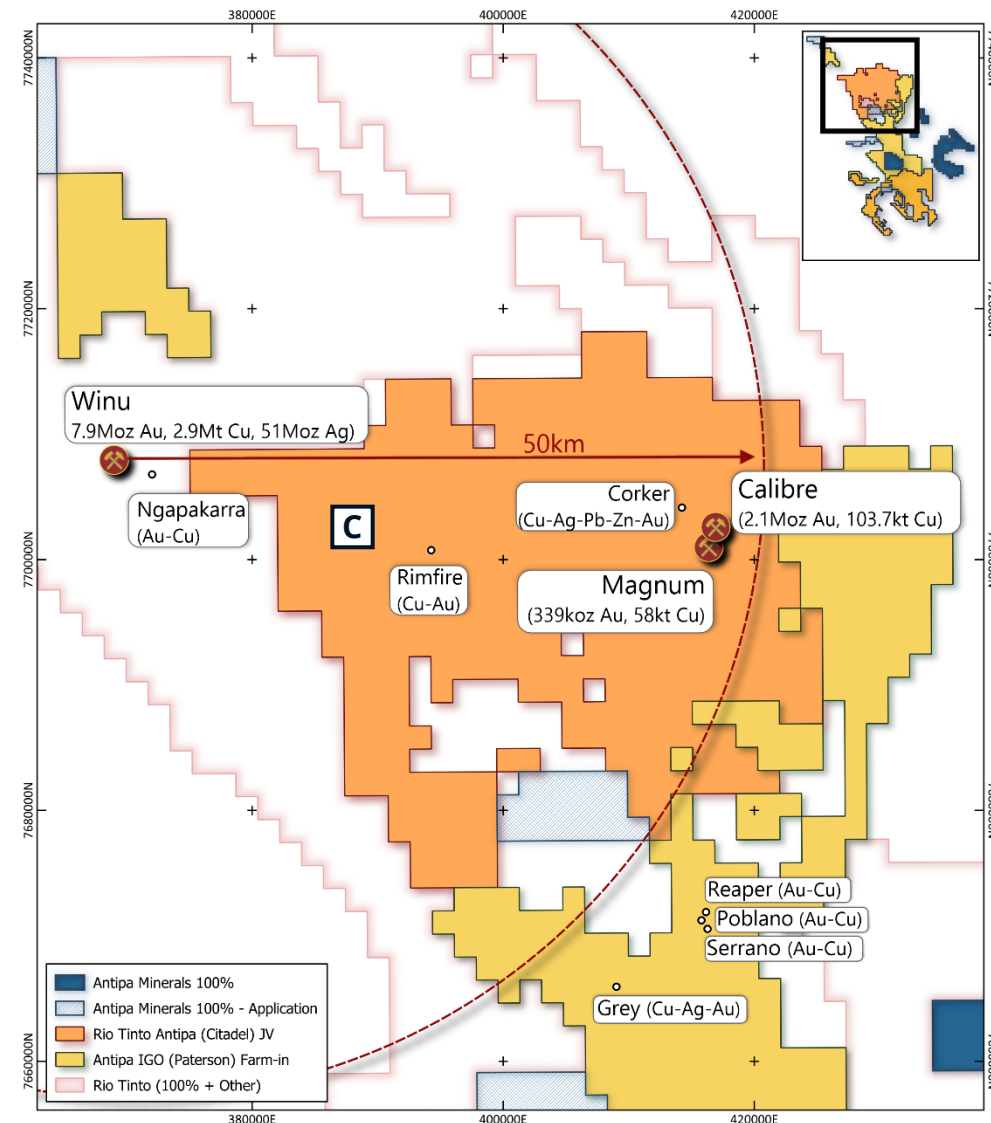

Au 2.4 Moz (0.8 Moz attributable) at 0.72 g/t

Cu 162 kt (52 kt attributable) at 0.15%

Ag 1.8 Moz (0.6 Moz attributable) at 0.54 g/t

1. The gold equivalence calculation on this slide provides Antipa's Citadel Project attributable metal value for each metal summed and expressed in equivalent gold grade and ounces using metallurgical recoveries of 100% for all metals. The prices used in this calculation being LME close prices on 3 May 2022, Au US\$1,870/oz, Cu US\$9,510/t, Ag US\$23/oz and Co US\$81,220/t. **Gold equivalent Moz** = (((price Au per ounce x attributable ounces of Au) + (price Cu per tonne x attributable tonnes of Cu) + (price Ag per ounce x attributable ounces of Ag) + (price Co per tonne x attributable tonnes of Co)) / price Au per ounce) / 1,000,000. Antipa confirms that it is not aware of any new information or data that materially affects the information included in relevant ASX releases, and that all material assumptions and technical parameters underpinning the Mineral Resource estimates in those releases continue to apply and have not materially changed.

2. Rio Tinto earned a 65% interest in the Joint Venture by sole funding A\$25M in exploration on the Citadel Project tenements. Antipa elected to utilise the dilute-down provisions in the Citadel JV Agreement to fund its share of the CY2022 exploration programme, resulting in its JV interest being reduced from 35% to approximately 33%.

CITADEL JV PROJECT (33% ANTIPA)

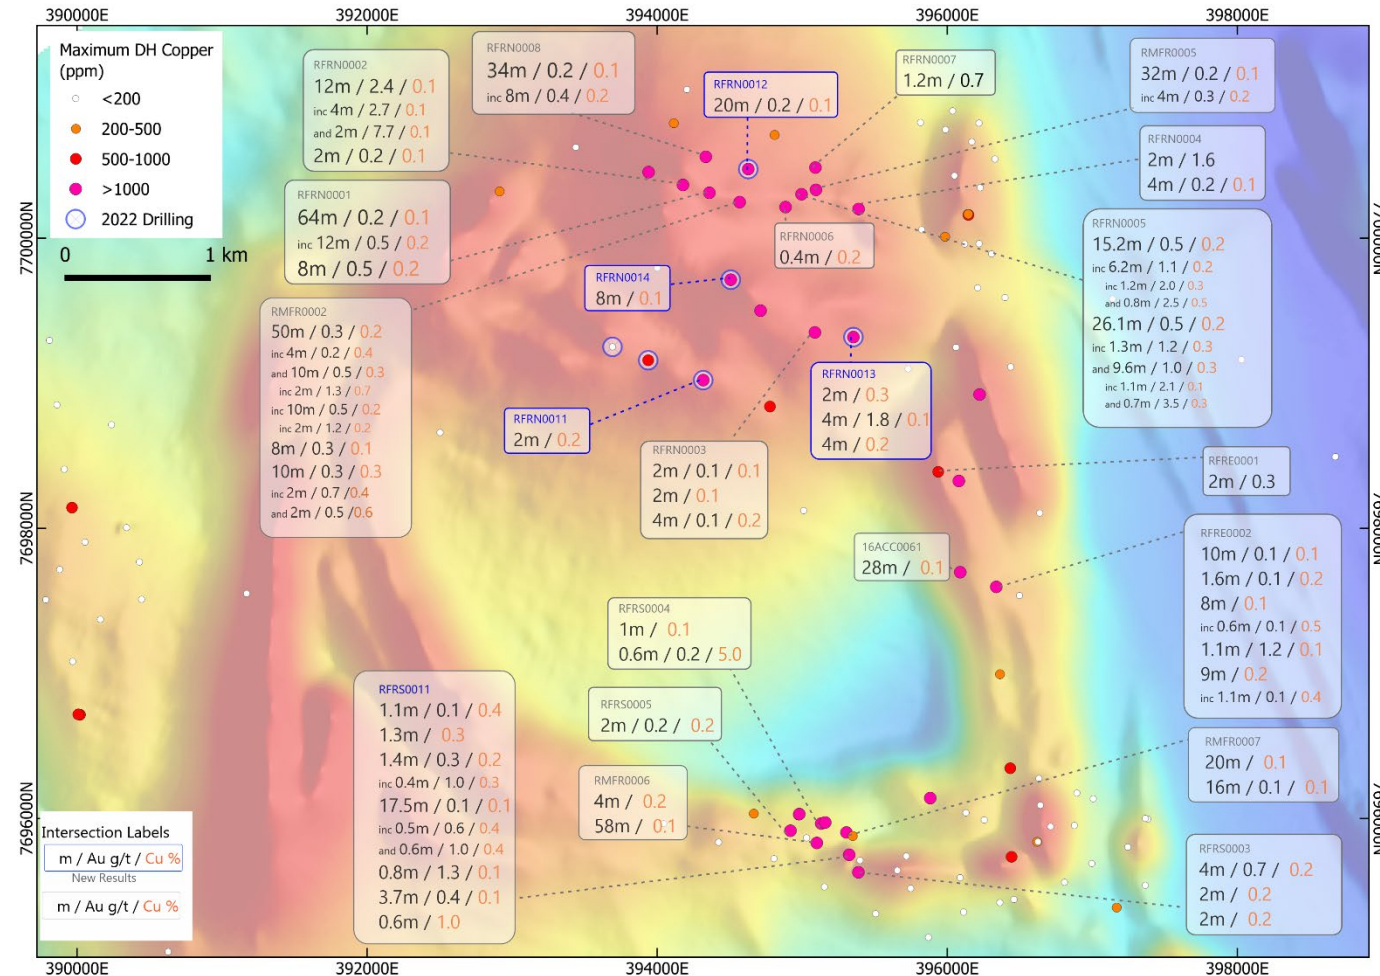

Antipa to operate exciting H2 CY2023 exploration programme

PROGRAMME DETAIL

- Planned for 1,000m to 1,400m of RC drilling
- To be fully funded by Rio Tinto¹ - Antipa operators
- Scheduled commencement September

KEY TARGETS

- Rimfire Southwest:
 - Interpreted fold hinge
 - SW sector of highly fertile gold-copper bearing Rimfire intrusion
 - No previous drilling
- Junction:
 - Two discrete magnetic high anomalies
 - Hosted along a major NNW-trending structure
 - Along strike from a known gold-copper prospects with co-incident magnetic highs

Exploration programmes and development studies are subject to changes which may be made consequent upon results, field conditions and ongoing review.

1. Antipa elected to utilise the dilute-down provisions in the Citadel JV agreement to fund its share of the CY2023 exploration programme, which will result in its JV interest being reduced from 33% to approximately 31%.

CITADEL JV PROJECT (33% ANTIPA)

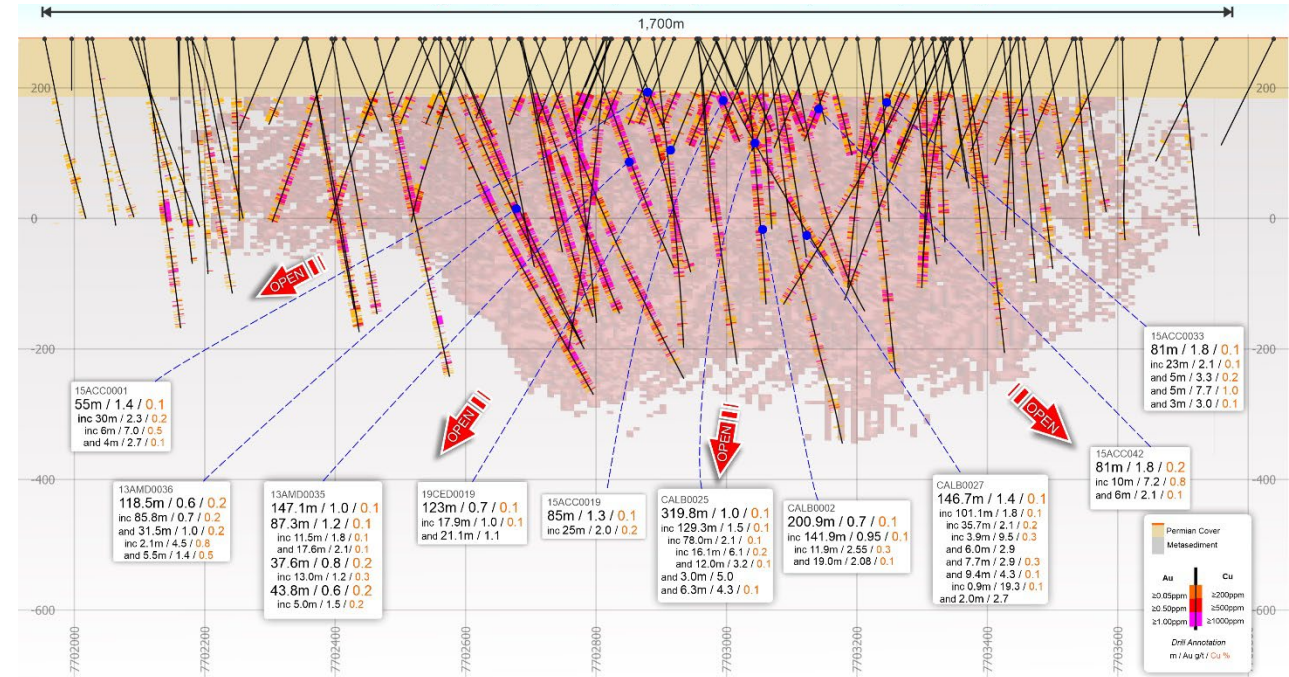

Geology and scale suggests substantial growth and development potential

CALIBRE DEPOSIT (SHOWN RIGHT)

- Inferred Mineral Resource 92Mt at 0.72 g/t gold, 0.11% copper and 0.46 g/t silver for 2.1Moz gold, 104kt copper and 1.3Moz silver
- 1.7km long, up to 480m thick and extends 500m down dip - open in most directions
- Only 80 metres of cover
- Just 45km from Winu

MAGNUM DEPOSIT

- Just 1km from Calibre
- Inferred Mineral Resource 16.1Mt at 0.66 g/t gold, 0.36% copper and 0.99 g/t silver for 339koz gold, 58kt copper and 511koz silver
- 2km long, up to 600m thick and extends 600m down dip - open in most directions
- Only 80 metres of cover

D WILKI FARM-IN PROJECT (100% ANTIPA)

SUBSTANTIAL 1,470km² LAND HOLDING

ATTRACTIVE FARM-IN WITH NEWCREST MINING¹

LOCATED WITHIN 3km OF THE TELFER GOLD-COPPER-SILVER MINE AND 22Mtpa PROCESSING FACILITY

AGREEMENT TO SPEND A\$60M FOR 75% JV INTEREST WITH A\$9M SPENT BY NEWCREST TO DATE

2.4 MT MINERAL RESOURCE

Au 103.5 koz at 1.3 g/t

1. Newcrest may earn a 51% interest in the Wilki Project tenements by funding A\$16M of exploration by March 2025 (consisting of A\$6M of exploration before March 2022 (Stage 1, which it has done) and a further A\$10M of exploration before March 2025 (Stage 2)).

D

WILKI FARM-IN PROJECT (100% ANTIPA)

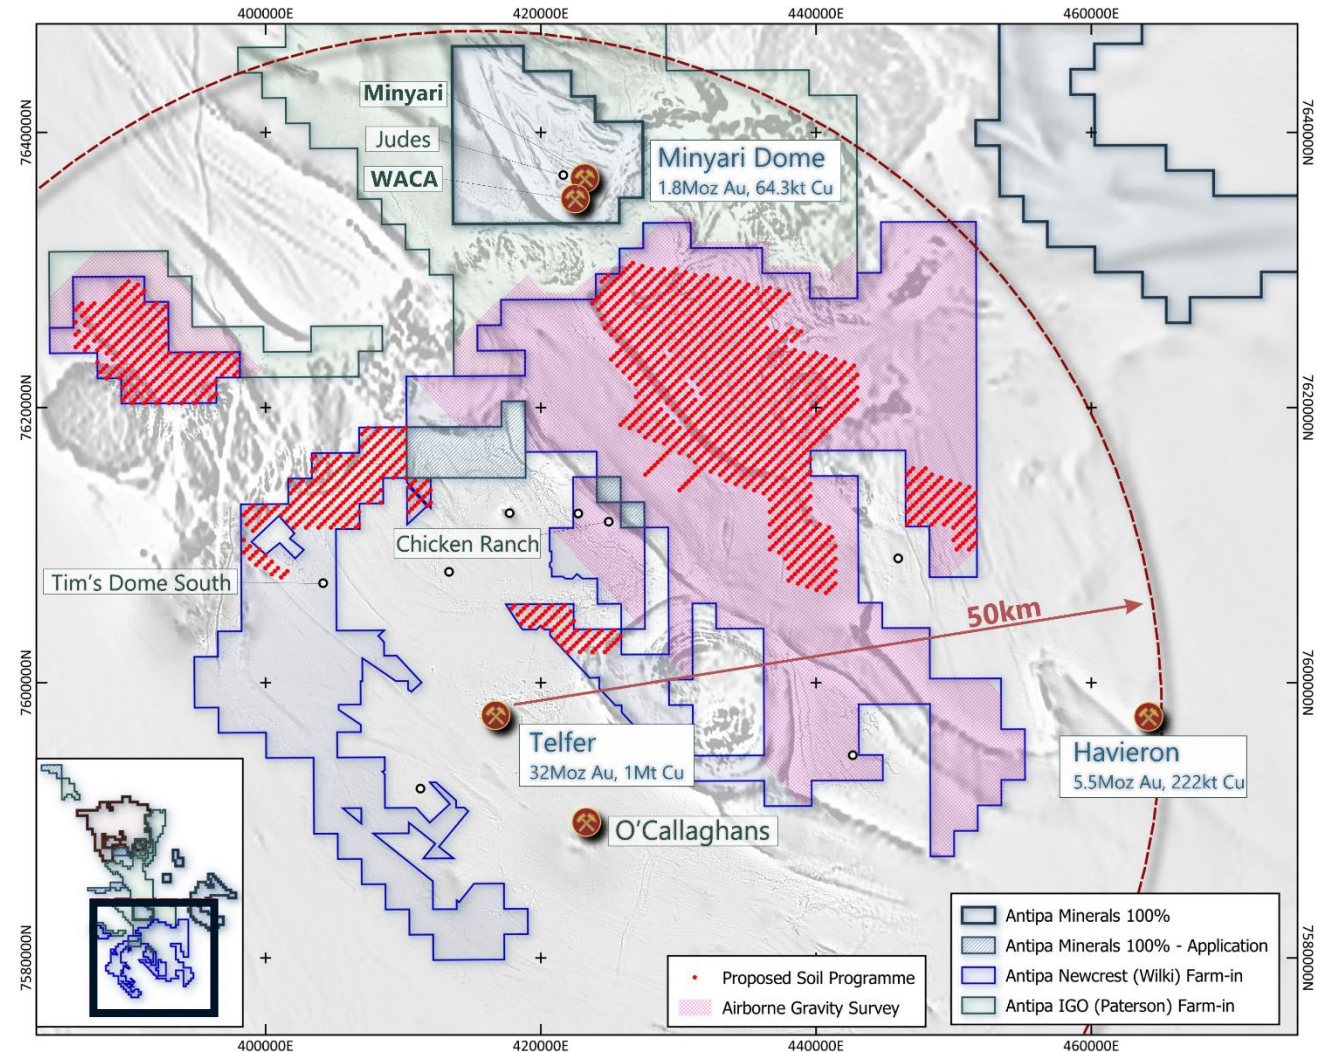

FY2024 exploration programme to regenerate greenfield target pipeline

PROGRAMME DETAIL

- Planned for up to 2,300m RC drilling
- Large-scale airborne gravity gradiometer (**AGG**) geophysical survey
- Large-scale soil geochemical sampling programme
- To be fully funded and operated by Newcrest
- Scheduled for completion H2 CY2023

KEY TARGETS

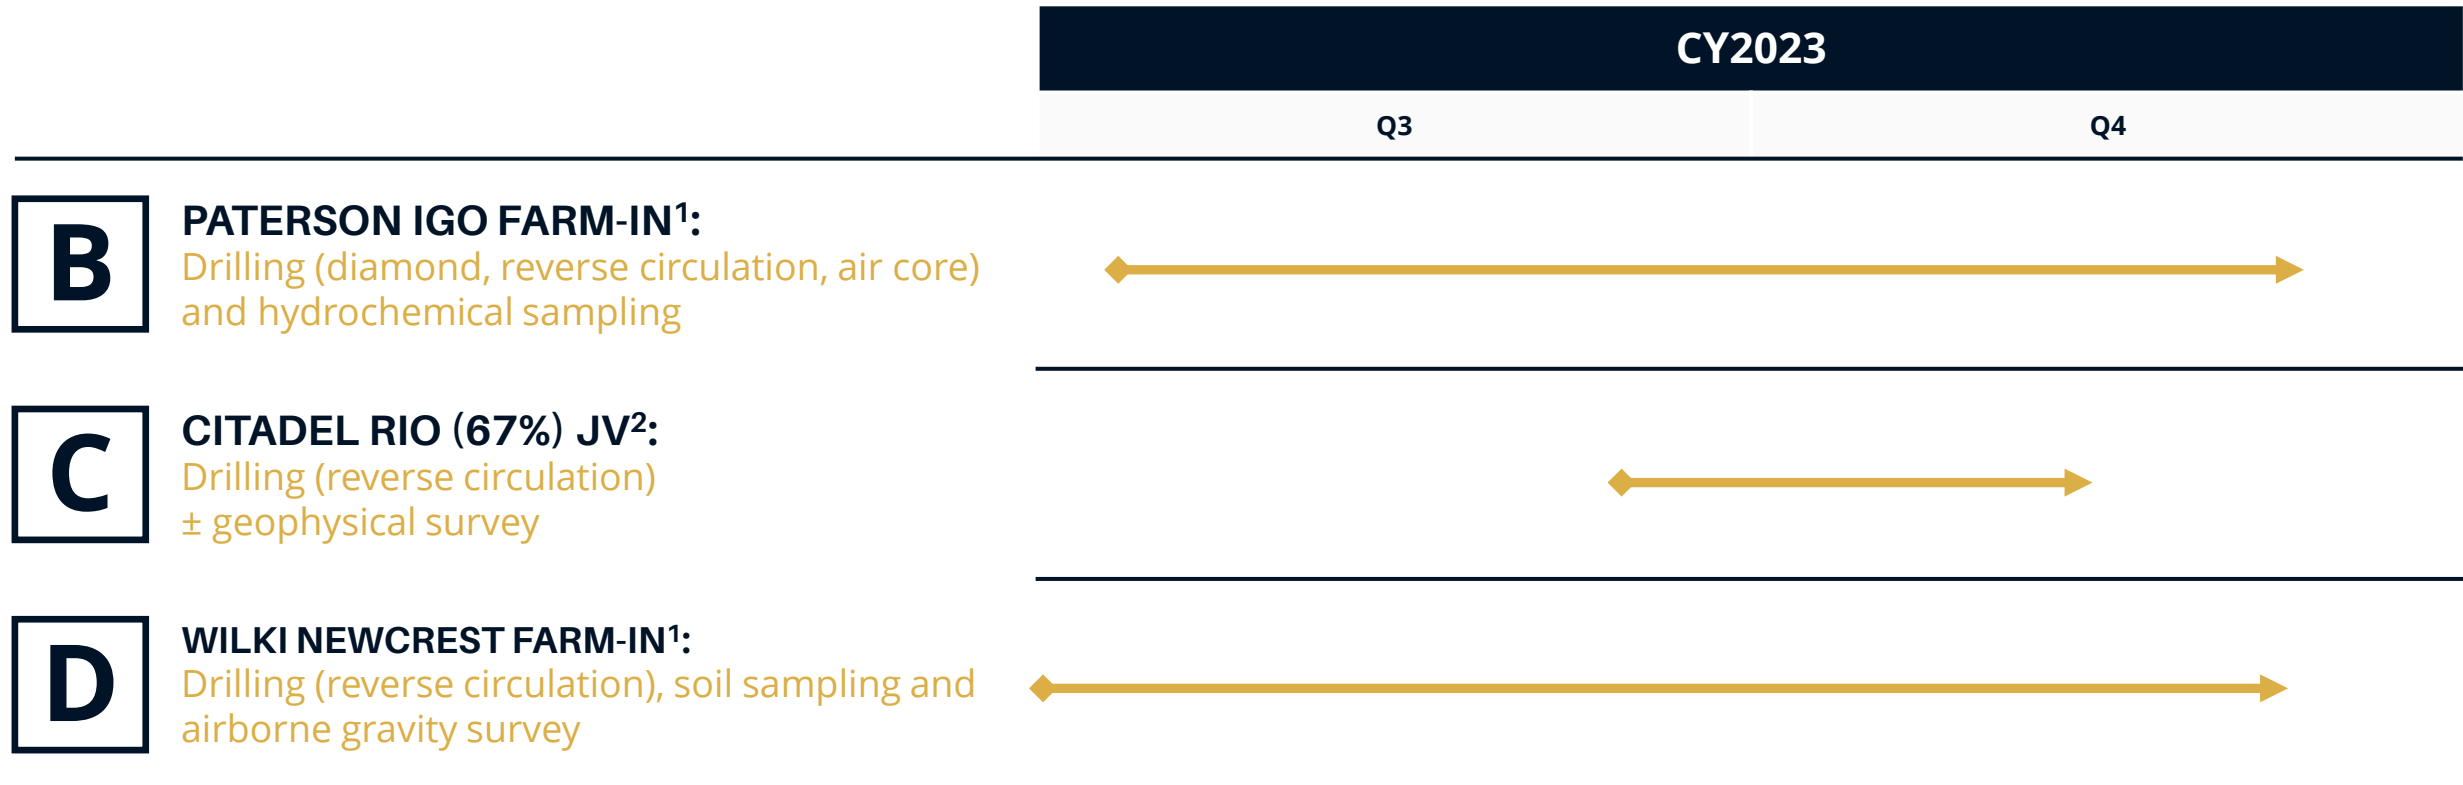

- Contingent on results of geophysical and geochemical programmes
- Emphasis greenfield discovery at Havieron, Winu and Telfer analogue targets within 10 to 50km of Newcrest's Telfer gold-copper-silver mine and 22Mtpa processing facility

Exploration programmes and development studies are subject to changes which may be made consequent upon results, field conditions and ongoing review.

COMPLEMENTARY MAJOR GROWTH PROJECTS

Multiple exploration activities across the Paterson Province

Exploration programmes are subject to any changes which may be made consequent upon results, field conditions and ongoing review.

1. Fully funded by respective farm-in partners, IGO and Newcrest.

2. Fully funded by JV partner, Rio Tinto, as Antipa has elected to utilise the the Citadel JV agreement dilute-down provisions to fund its share of the CY2023 exploration programme. Antipa did the same to fund its share of the CY2022 exploration programme, resulting in its JV interest being reduced from 35% to 33% and Rio's JV interest increasing from 65% to 67%.

1. At 6 September 2023 based on 3,981,666,878 ordinary fully paid shares on issue.

2. Cash at 31 July 2023 (unaudited), plus proceeds from \$5 M Placement completed on 5 September 2023 (before costs). Excludes proceeds of up to \$2M from Rights Issue announced 1 September 2023, not expected to complete until 3 October 2023.

3. At 6 September 2023, includes 303.8 M Director and employee options, plus 226.7 M placement and SPP options. Weighted average exercise price of all options is 4.9 cents and would raise up to A\$26.2 M if exercised. Excludes up to 268.9 M free-attaching Placement and Rights Issue unlisted options, subject to shareholder approval at a General Meeting expected to be held in October 2023.

4. Shareholdings may be held directly or through nominees.

BOARD AND MANAGEMENT

Stephen Power

Non-executive Chairman

- Corporate lawyer with more than 30 years of legal, commercial and corporate management experience
- Former advisor to LionOre Mining International

Roger Mason

Managing Director

- Geologist with 35 years experience spanning exploration, project development, production and project acquisition
- Former General Manager Geology for LionOre Australia and Norilsk Nickel Australia
- Former consultant to Integra Mining Ltd

Mark Rodda

Executive Director – Commercial and Legal

- Lawyer and corporate consultant
- 30 years legal, commercial and corporate management experience
- Director of Lepidico
- Former Chairman of Coalspur Mines, and former General Counsel of LionOre Mining international

Peter Buck

Non-Executive Director

- Geologist
- 40 years industry experience across international exploration, acquisition and production
- Previously Director of IGO, PMI Gold, Gallery Gold, LionOre Australia and Breakaway Resources

Gary Johnson

Non-Executive Director

- Metallurgist
- 40 years of industry experience covering plant design, project development and operations
- Chairman of Lepidico, and Director of Strategic Metallurgy
- Former Director of LionOre's Tati Nickel

Luke Watson

CFO and Company Secretary

- Chartered Accountant with over 20 years experience
- Held senior corporate and finance positions with several listed exploration and development companies
- Former CFO and Company Secretary of Mantra Resources

EMERGING AS A SIGNIFICANT GOLD AND COPPER BUSINESS

OUTSTANDING LOCATION

PROXIMAL TO THE TELFER MINE
AND HAVIERON AND WINU
DEVELOPMENT PROJECTS

- Paterson region has been historically underexplored
- Prospective frontier for the discovery of multi-cycle, tier-one gold-copper deposits
- In the last 7 years >18Moz of gold and >4Mt of copper discovered
- Western Australia is a low-risk, mining-friendly jurisdiction

RESOURCE GROWTH POTENTIAL

ONGOING EXPLORATION
WITH FUTURE EXPANSION
UPSIDE

- Existing 2.6 Moz attributable group gold Mineral Resource¹
- Aggressively expanded CY2023 drilling programme at Minyari Dome Project (100% Antipa)
- Additional, substantial exploration leverage across the JV and Farm-in portfolio through CY2023
- Current and future value pathways for shareholders

STRATEGIC PARTNERSHIPS

HIGH QUALITY SUPPORTIVE
PARTNERS

- Strategic JV and farm-in agreements with Rio Tinto, Newcrest and IGO
- Combined historical partner contribution of +A\$56M of exploration spend
- Cumulative potential free-carry exploration spend of up to A\$115M
- Strong major discovery objectives and actions

1. Refer to Antipa Minerals ASX releases dated 23 February 2015, "Calibre and Magnum Mineral Resources JORC 2012 Updates", 17 May 2021, "Calibre Gold resource increase 62% to 2.1 Million Ounces", and 2 May 2022, "Minyari Dome Project Gold Resource Increases 250% to 1.8Moz". Antipa Minerals confirms that it is not aware of any new information or data that materially affects the information included in those releases. All material assumptions and technical parameters underpinning those releases continues to apply and has not materially changed.

Competent Persons Statement – Exploration Results

The information in this document that relates to Exploration Results is based on and fairly represents information and supporting documentation compiled by Mr Roger Mason, a Competent Person who is a Member of The Australasian Institute of Mining and Metallurgy. Mr Mason is a full-time employee of the Company. Mr Mason is the Managing Director of Antipa Minerals Limited, is a substantial shareholder of the Company and is an option holder of the Company. Mr Mason has sufficient experience relevant to the style of mineralisation and type of deposit under consideration and to the activity being undertaken to qualify as a Competent Person as defined in the 2012 Edition of the 'Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves'. The Company confirms that the form and context in which the Competent Person's findings are presented have not been materially modified from the original market announcements, all of which are available to view on www.antipaminerals.com.au and www.asx.com.au. Mr Mason, whose details are set out above, was the Competent Person in respect of the Exploration Results in these original market announcements.

Competent Persons Statement – Mineral Resource Estimations for the Minyari Dome Project Deposits, Calibre Deposit, Magnum Deposit and Chicken Ranch Area Deposits and Tim's Dome Deposit

The information in this document that relates to the estimation and reporting of the Minyari Dome Project deposits Mineral Resources is extracted from the report entitled "Minyari Dome Project Gold Resource Increases 250% to 1.8 Moz" created on 2 May 2022 with Competent Persons Ian Glacken, Jane Levett, Susan Havlin and Victoria Lawns, the Tim's Dome and Chicken Ranch deposits Mineral Resources is extracted from the report entitled "Chicken Ranch and Tim's Dome Maiden Mineral Resources" created on 13 May 2019 with Competent Person Shaun Searle, the Calibre deposit Mineral Resource information is extracted from the report entitled "Calibre Gold Resource Increases 62% to 2.1 Million Ounces" created on 17 May 2021 with Competent Person Ian Glacken, and the Magnum deposit Mineral Resource information is extracted from the report entitled "Calibre and Magnum Deposit Mineral Resource JORC 2012 Updates" created on 23 February 2015 with Competent Person Patrick Adams, all of which are available to view on www.antipaminerals.com.au and www.asx.com.au. The Company confirms that it is not aware of any new information or data that materially affects the information included in the original market announcements and that all material assumptions and technical parameters underpinning the estimates in the relevant original market announcements continue to apply and have not materially changed. The Company confirms that the form and context in which the Competent Person's findings are presented have not been materially modified from the original market announcements.

Scoping Study Information:

The information in this document that relates directly to the 2022 Minyari Dome Project Scoping Study report was compiled by Mr. Roger Mason, a Competent Person who is a Member of The Australasian Institute of Mining and Metallurgy. Mr. Mason is employed as Managing Director of Antipa Minerals and has sufficient experience in the development of gold projects from the studies phase to the operational phase and consents to the inclusion in the report of the matters based on his information in the form and context in which it appears.

1. Antipa elected to utilise the Citadel JV agreement dilute-down provisions to fund its share of the CY2022 exploration programme, resulting in its JV interest being reduced from 35% to ≈ 33% and Rio's JV interest increasing from 65% to ≈ 67%.

2. Refer to gold equivalent (Aueq or Au equiv.) calculation parameters on the following slide.

MINERAL RESOURCE ESTIMATE

Gold Equivalent Calculations

Gold Metal Equivalent Information – Minyari Dome Project Mineral Resource Gold Equivalent reporting cut-off grade:

The 0.5 g/t and 1.5 g/t Aueq cut-off grades assume open pit and underground mining, respectively.

A gold equivalent grade (**Aueq**) has been calculated from individual gold, copper, silver and cobalt grades. This equivalent grade has been calculated and declared in accordance with Clause 50 of the JORC Code (2012), using the following parameters:

- The metal prices used for the calculation are as follows:
 - US\$ 1,944 per oz gold
 - US\$ 4.74 per lb copper
 - US\$ 25.19 per oz silver
 - US\$ 77,380 per tonne cobalt
- An exchange rate (A\$:US\$) of 0.7301 was assumed
- Metallurgical recoveries for by-product metals, based upon Antipa test-work in 2017 and 2018, are as follows:
 - Copper = 85.0%, Silver = 85%, Cobalt = 68%
- The gold equivalent formula, based upon the above commodity prices, exchange rate and recoveries, is thus:
 - **Aueq** = (Au g/t) + (Ag g/t * 0.011) + (Cu % * 1.42) + (Co % * 8.42)

Gold Metal Equivalent Information - Calibre Mineral Resource Gold Equivalent reporting cut-off grade and Gold Equivalent grade:

A gold equivalent grade (**Aueq**) has been calculated from individual gold, copper and silver grades. This equivalent grade has been calculated and declared in accordance with Paragraph 50 of the JORC Code, using the following parameters:

- The metal prices used for the calculation are as follows:
 - US\$ 1,874 /oz gold
 - US\$ 4.50 /lb copper
 - US\$ 25.25 /oz silver
- An exchange rate (A\$:US\$) of 0.722 was assumed.
- Metallurgical recoveries, based upon Antipa test-work in 2014, are as follows:
 - Gold = 84.5%, Copper = 90.0%, Silver = 85.4%
- A factor of 105% (as with the previous estimate) has been applied to the recoveries for gold, copper and silver to accommodate further optimisation of metallurgical performance. Antipa believes that this is appropriate, given the preliminary status of the recovery test-work.
- Tungsten has not been estimated and does not contribute to the equivalent formula.
- The gold equivalent formula, based upon the above commodity prices, exchange rate, recoveries, and using individual metal grades provided by the Citadel Project Mineral Resource Estimate table, is thus:
 - **Aueq** = Au (g/t) + (1.75*Cu%) + (0.014*Ag g/t)

Gold Metal Equivalent Information - Magnum Mineral Resource Gold Equivalent reporting cut-off grade:

A gold equivalent grade (**Aueq**) has been calculated from individual gold, copper, silver and tungsten grades. This equivalent grade has been calculated and declared in accordance with Paragraph 50 of the JORC Code, using the following parameters:

- The metal prices used for the calculation are as follows:
 - US\$ 1,227 /oz gold
 - US\$ 2.62 /lb copper
 - US\$ 16.97 /oz silver
 - US\$ 28,000 /t WO₃ concentrate
- An exchange rate (A\$:US\$) of 0.778 was assumed.
- Metallurgical recoveries, based upon Antipa test-work in 2014, are as follows:
 - Gold = 84.5%, Copper = 90.0%, Silver = 85.4% and W = 50.0%
- A factor of 105% (as with the previous estimate) has been applied to the recoveries for gold, copper and silver to accommodate further optimisation of metallurgical performance. Antipa believes that this is appropriate, given the preliminary status of the recovery test-work.
- Note that the tungsten recovery of 50% is considered indicative at this preliminary stage based on the initial metallurgical findings.
- Conversion of W% to WO₃% grade requires division of W% by 0.804.
- The gold equivalent formula, based upon the above commodity prices, exchange rate, and recoveries, is thus:
 - **Aueq** = (Au (g/t) x 0.845) + ((%Cu x (74.32/50.69) x 0.90)) + ((Ag (g/t) x (0.70/50.69) x 0.854)) + ((%W/0.804 x (359.80/50.69) x 0.50))

It is the Company's opinion that all the metals included in the metal equivalents calculations above have a reasonable potential to be recovered and sold.

JV AND FARM-IN PROJECT SUMMARY

CITADEL JOINT VENTURE – ANTIPA 33%¹ : RIO TINTO 67%¹ (RIO EARNT 65% BY SOLE FUNDING A\$25M)

- ~1,200km² Citadel JV Project just 4km from Rio Tinto’s Winu copper-gold-silver development project
- Existing Mineral Resource 2.4Moz gold at 0.72 g/t, 162kt copper at 0.15% and 1.8Moz silver at 0.54 g/t
- Currently operated by Antipa
- Antipa utilising the dilute-down provision in JV agreement – Rio Tinto sole funding CY2022 and CY2023 programmes¹

WILKI PROJECT - A\$60M NEWCREST FARM-IN FOR UP TO 75% INTEREST (CURRENTLY AZY 100% : NCM 0%)

- ~1,470km² Antipa / Newcrest Farm-in Project (agreed 28 February 2020) comes to within 3km of Newcrest’s Telfer gold-copper-silver mine and 22Mtpa plant and 9km of the Havieron gold-copper development project
- Initial A\$6M minimum exploration programme within 2 years managed by Antipa (achieved December 2021)
- Newcrest may earn a 51% interest in the Wilki Project by spending a further A\$10M within 5 years of commencement (i.e. 28 February 2025)
- Newcrest may earn up to 75% by sole funding a further A\$44M within 8 years of commencement (Total expenditure of A\$60M within 8 years of commencement of the Farm-in, i.e. by 28 February 2028)
- Managed and operated by Newcrest from July 2022
- Newcrest holds 9.9% interest in Antipa

PATERSON PROJECT - A\$30M IGO FARM-IN FOR UP TO 70% INTEREST (CURRENTLY AZY 100% : IGO 0%)

- ~1,550km² Antipa / IGO Farm-in Project (agreed 9 July 2020) comes within 23km of Telfer and 8km of Rio’s Winu copper-gold-silver development project
- Initial A\$4M minimum exploration programme within 2.5 years managed by Antipa completed ahead of schedule in December 2021
- IGO may earn a 70% interest in the Paterson Project by spending a further A\$26M within 6.5 years of commencement, to be managed at IGO’s option (Total expenditure of A\$30M within 6.5 years of commencement of the Farm-in, i.e. by January 2027)
- Upon joint venture formation, IGO shall free-carry Antipa to completion of a Feasibility Study
- Managed and operated by IGO from March 2022
- IGO holds 4.1% interest in Antipa

¹ Antipa elected to utilise the dilute-down provisions in the Citadel JV agreement to fund its share of the CY2022 exploration programme, resulting in its JV interest being reduced from 35% to approximately 33% and Rio’s JV interest increasing to 67%.

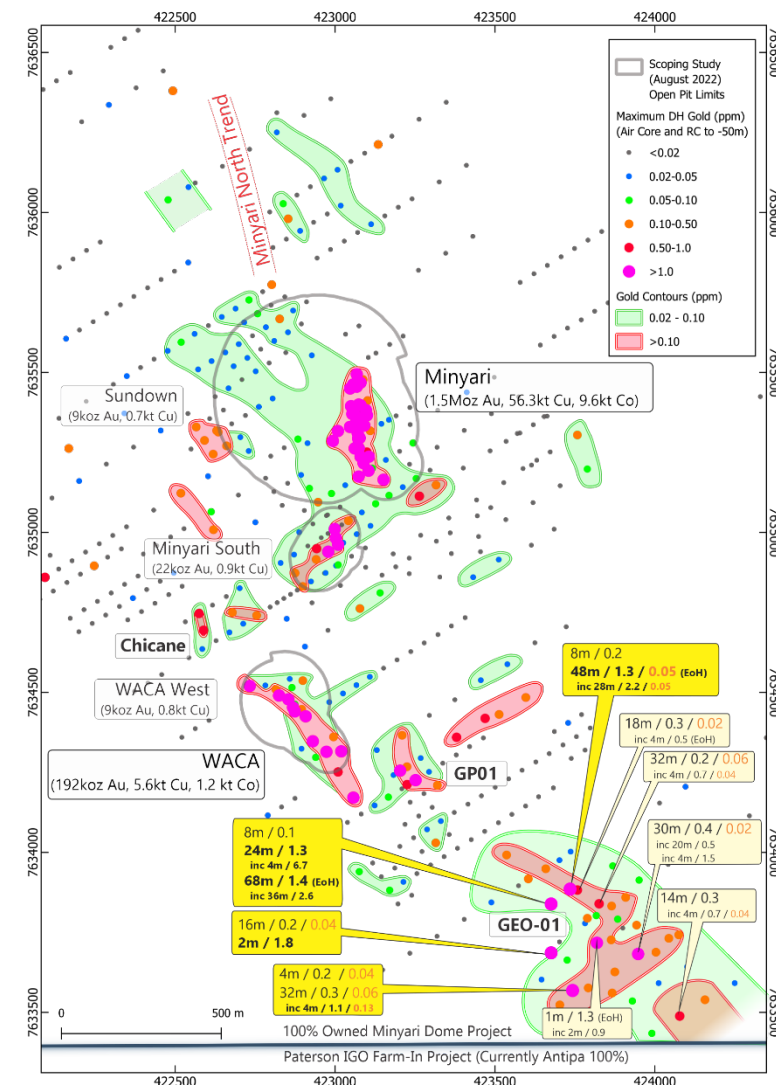

A

AGGRESSIVE GROWTH DRILLING PROGRAMME

1 GEO-01 delivers potential open pit amenable maiden resource opportunity

GEO-01 PROSPECT

- Significant near-surface high-grade gold mineralisation intersected:
 - 24m at 1.3 g/t gold** from 16m down hole in 23MYC0383, including:
 - 4m at 6.7 g/t gold** from 28m
 - 68m at 1.4 g/t gold** from 68m down hole to within 2m of end-of-hole (EoH) in 23MYC0383, including:
 - 36m at 2.6 g/t gold** from 72m
 - 48m at 1.3 g/t gold** and 0.05% copper from 132m down hole to EoH in 23MYC0384, including:
 - 28m at 2.2 g/t gold** and 0.05% copper from 132m
- Mineralisation remains open in most directions
- Only 3 to 16 metres of cover
- Just 1.3km from 1.5Moz Minyari resource
- Significant potential open pit amenable maiden resource opportunity
- Substantial Phase 2 follow-up RC ± diamond core drilling to test potential maiden resource opportunity planned to commence in September

PATERSON IGO FARM-IN PROJECT (100% ANTIPA)

High priority co-incident gravity and magnetic targets

- Havieron 5.5Moz gold and 222kt copper¹ and Minyari 1.8Moz gold 64kt copper deposits are both co-incident magnetic and gravity highs
- PP-GRAV02 located 10km southwest of Minyari - Line of shallow, broad 200m spaced 1991 Newcrest RAB holes intersected up to 0.1 g/t gold along the edge of the target
- PP-GRAV01 located 20km north of Minyari - no previous drilling in the area

¹.Refer to slide 29 for Havieron Mineral Resource information.

SHALLOW DEPTH OF YOUNGER COVER

First mover exploration and development advantage

APPROXIMATELY 50%

of Antipa tenements are under less than 20 metres of cover

APPROXIMATELY 80%

of Antipa tenements are under less than 80 metres of cover

TELFER GOLD – COPPER – SILVER OPERATION

Gold production gap

- Newcrest Mining's (NCM) group production profile
- Focus on the orange area (i.e. Telfer+Havieron)¹
- Note NCM's diminishing production from the Telfer hub (35km from Minyari) from FY24¹ onwards which has recently been pushed-out until early FY25²

INDICATIVE BASE CASE GOLD PRODUCTION PROFILE

1. Graph from Newcrest public release report "Newcrest advances its global organic growth portfolio" 12 October 2021 available on Newcrest's website (www.newcrest.com) and Australian Securities Exchange (ASX:NCM) news releases (www.asx.com.au).
 2. Newcrest public release report "Telfer Mine life extended West Dome Stage 8 Approval" 8 November 2022 available on Newcrest's website (www.newcrest.com) and Australian Securities Exchange (ASX:NCM) news releases (www.asx.com.au).

HAVIERON GOLD – COPPER DEPOSIT

Mineral Resource 5.5 Moz of gold and 222,000 tonnes of copper^{1,2}

1. The Havieron deposit is the subject of a joint venture agreement between Greatland Gold Plc and Newcrest Mining Ltd. Newcrest holds a 70% interest in Havieron earned via total expenditure of US\$65M.

2. Refer Greatland Gold Plc's website (www.greatlandgold.com) and London Stock Exchange (AIM: GGP) news releases (www.londonstockexchange.com) and Newcrest Mining Ltd (www.newcrest.com.au) and Australian Stock Exchange (ASX: NCM) news releases (www.asx.com.au) including the Mineral Resource statement released 19 August 2022.
